

Occupational Health & Safety (OH&S) Policy

1. Purpose

HCLTech is committed to providing a safe, healthy, and secure work environment for all stakeholders. This policy affirms the organization's formal commitment to Occupational Health & Safety (OH&S), embedding safety, health and well-being into strategic and operational decision making. The health and safety of employees remain a top priority, and the overall well-being of people is fundamental to our success.

2. Scope

This policy applies to all HCLTech Operations, subsidiaries, premises, facilities, employees, contractors, vendors, partners, and stakeholders. It encompasses all locations, activities, services, processes and workplace environments under organizational control that may influence occupational health and safety.

The policy is aligned with the nature and scale of HCLTech's operations and reflects adherence to comply with all applicable legal and other OH&S obligations. It provides a structured framework for setting and reviewing OH&S objectives, integrating safety considerations into planning and decision-making at all levels.

3. Policy Statement

Top management Commitment

Top management at HCLTech is committed to achieving excellence in Occupational Health and Safety by providing leadership and accountability to safeguard the health, safety, and well-being of all stakeholders. This commitment includes fulfilling applicable legal and regulatory OH&S requirements and promoting a proactive and preventive safety culture across all operations.

OH&S Management Excellence

HCLTech strives for excellence in OH&S management through the following commitments:

- Ensure the health and safety of employees, contractors, visitors, and stakeholders affected by its operations.
- Fulfil all applicable OH&S legal and regulatory requirements.
- Identify hazards, assess risks, and implement appropriate controls to eliminate hazards or reduce risks to as low as reasonably practicable.
- Prevent work-related injuries and ill health through effective preventive and protective measures.
- Integrate OH&S considerations into business decisions, operational planning, and workplace design.
- Encourage consultation and active participation of employees and contractors in OH&S matters.

- Training, awareness, and capability-building initiatives are provided for employees and relevant value-chain partners to support effective participation in OH&S practices.
- Establish emergency preparedness and response arrangements and ensure personnel are trained to respond to emergency scenarios.
- Utilize appropriate technologies and systems to enhance monitoring and continual improvement of OH&S performance.
- Promote continual improvement of the occupational health and safety management system.

Objectives and Targets

Company establishes measurable OH&S objectives and targets focused on continuous improvement, risk reduction, and compliance with global standards:

- To maintain lost time injury frequency rate (LTIFR) (Per 1 million-person hours worked) (Reported Annually) <1

Communication:

HCLTech promotes a culture of safety based on awareness, inclusion, and shared responsibility. The Occupational Health & Safety (OH&S) Policy is communicated to all relevant personnel and made publicly accessible through official channels. Regular training and awareness programs are conducted to ensure effective implementation. Employees, contractors, visitors, and other stakeholders are informed of their obligations to exercise reasonable care for their own health and safety and that of others.

Governance

The Board of Directors provides oversight of enterprise-level occupational health, safety, and well-being performance, including for employees and outsourced personnel. This oversight is supported by the ESG and Diversity, Equity and Inclusion (ESG & DEI) Committee, which ensures the allocation of appropriate resources and strategic direction. The functional managers monitor policy implementation, progress against objectives, and compliance with applicable OH&S requirements.

Grievance Mechanism:

HCLTech provides a transparent grievance mechanism that allows stakeholders to raise concerns related to this policy. Complaints can be submitted through designated channels and are handled confidentially, with timely acknowledgment, investigation, and resolution. The process ensures non-retaliation and supports continuous improvement through regular monitoring and reporting. Internal complaints with respect to occupational health and safety can be raised through Incident Management – Occupational Health, Safety and Environment ([IMSHS](#)) while external parties may raise complaints through whistleblower@hcltech.com or via the **Ethics Helpline** (*MyHCLTech → Top Ribbon (Main Menu) → Ethics Helpline*).
